

Stuart Perriam. Business development manager (North) Office Friendly

PRIMATE

lives

The first thing I do when I get into work is... put my seat belt on.

My desk is... the front seat of my car.

I keep on top of everything by... prayer.

The websites I use the most are... Office Friendly, LFC.TV, DS Online.

The view from my desk is... the M6, M62, M5, M8, M9, M60, M65, M69.

When on the phone the most important thing is... how long the signal will last.

The things I can't do without at work are... my laptop, my mobile, and my diary.

I never thought this job would require me to... have such a good time.

The busiest time of day for me is... 7am to 7pm.

→ The worst thing about work is...
traffic jams

The best thing about work is... the Office Friendly team and Office Friendly dealers.

When I'm not at work I... can't stop dreaming about Office Friendly!

My best piece of advice for other sales people is... think outside the box and enjoy what you do.
